UniVoIP, Inc. <http://univoip.com>, a leader in cloud communications and Business VoIP technology headquartered in El Segundo, CA, announced today that TMC, a global, integrated media company, has named the OfficeConnect Enterprise a 2015 Internet Telephony TMC Labs Innovation Award winner presented by IT magazine.

UniVoIP's OfficeConnect Enterprise is an extremely robust, cloud based, highly flexible solution delivering 500+ PBX, Contact Center and UC features via private, public or hybrid networking options in a multi-instance infrastructure environment. Furthermore, it offers enterprises a simple predictive user-based monthly recurring charge (MRC) pricing structure including minutes, DID, toll free, unlimited support, lifetime warranty and supported by a service level agreement.

For more information visit UniVoIP's OfficeConnect Enterprise.

"We have positioned OfficeConnect Enterprise to be a very unique and powerful offering setting us apart from our competitors. In fact, within the cloud contact center market, OC Enterprise brings together feature-rich cloud communication services with managed QoS connectivity over a secured network with a committed Service Level Agreement - rarely seen in the industry. This allows UniVoIP to bring together a powerful cloud multimedia contact center and a unified communications solution all on one platform with the highest level of quality. Congruently, this allows our contact center customers to provide superior and reliable services to their own customers." – Chris Vuillaume, Vice President of Sales

OfficeConnect Enterprise is designed for US-based enterprises sized 100 to 5000 employees in single or multisites with advanced communications services supported by advanced Unified Communications and Multimedia Contact Center features. UniVoIP's cloud is based on a multi-instance infrastructure environment delivering reliability, security, scalability and privacy while also differentiating UniVoIP from the competition which mostly operate under the multi-tenant infrastructure.

About UniVoIP

Since 2005, UniVoIP has been a pioneering leader in Cloud Communications and VoIP technology. Headquartered in El Segundo, California – UniVoIP has helped thousands of clients nationwide to shed intricate on-premise infrastructure in exchange for Cloud-hosted services. Opening the way for offices to become flexible, mobile and efficient in today's ever evolving work environment.

About TMC

The Internet Telephony TMC Labs Innovation Award honors products that display innovation, unique features, and significant contributions toward improving communications technology. The awards are bestowed to those companies demonstrating ground-breaking contributions to the industry.
