EL SEGUNDO, CA (FOX 11) - The Old Time Music Hall in El Segundo is a little step back in time. Step inside the beautifully preserved theater and you're transported to a time when going to the movies was an adventure. Although the Old Town Music Hall doesn't play only silent films, that is one of its claims to fame. Each show features a performance by the 1925 Mighty Wurlitzer organ, an audience sing along, and a comedy short along with the classic main feature [film](#).

The silent [films](#) are also accompanied by the Mighty Wurlitzer, which is a show in-and-of-itself with all it's bells and whistles (literally!) and flashing lights. It may be the only opportunity in the big city to take a step back and experience life the way your grandparents did.
